PROFESSIONAL SUMMARY

Apprentice at American Express with hands-on experience in agile development, APIs, and customer-facing web applications. Proficient in Java, JavaScript, Python, React.js, and SQL, focused on building scalable and reliable solutions.

EDUCATION

United College of Engineering & Management, Allahabad Bachelors of Technology in Computer Science and Engineering	2020 - 2024 CGPA: 7.99/10 Certificate of Excellence in Department
Central Academy Intermediate (CBSE)	2019 - 2020 Percentage: 80.4%
Central Academy High School (CBSE)	2017 - 2018 Percentage: 75.6%

PROFESSIONAL EXPERIENCE

Apprentice American Express - Contribute to an agile team through sprint planning, stand-ups, retrospectives, and SDLC practices. - Develop, test, and review code using Java, JavaScript, and Python while adhering to enterprise coding standards. - Support web and API-based systems with a focus on performance, reliability, automation, and customer experience.	January 2026 - Present
Frontend Developer Indian Infotech - Designed and developed responsive web applications using React.js, HTML, CSS, and JavaScript. - Built reusable UI components and optimized performance to improve maintainability and cross-browser usability. - Integrated frontend interfaces with RESTful APIs while collaborating in an agile, cross-functional team.	January 2025 - November 2025
Artificial Intelligence Intern Acmegrade - Worked on AI-driven application development involving data handling, model integration, and feature implementation. - Applied programming fundamentals to build and optimize components supporting intelligent system workflows. - Collaborated in a team environment to understand problem statements and deliver functional AI-based solutions.	April 2022 - June 2022

TECHNICAL SKILLS AND INTERESTS

- Programming Languages:** Java, Python, JavaScript
- Web & Backend Technologies:** HTML, CSS, React.js, Node.js, RESTful APIs
- Database:** SQL, MySQL, MongoDB
- Tools & Libraries:** Git & GitHub, CI/CD pipeline, Docker, Postman, Bootstrap, Redux
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, SDLC, STLC, Agile Methodologies
- Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Communication

PROJECTS

Handwritten Digit Recognition - Built a machine learning model for real-time digit recognition using Python. - Optimized preprocessing and inference pipeline for fast and accurate predictions. - Designed the solution for real-world automation use cases, including banking and logistics systems.
Co-Exist: Sustainable Living Platform - Developed a full-stack web platform promoting sustainable living practices. - Implemented user authentication, personalized dashboards, and interactive UI features. - Created an analytics-driven dashboard to encourage data-informed decision-making.

CERTIFICATION

- Python Full-Stack Developer:** DUCAT
- Google IT Support Certificate:** Coursera (Google)
- Summer Training:** Core Java, Machine Learning

LEADERSHIP AND ACHIEVEMENTS

- Class Representative for **4 consecutive years**, coordinating 60+ students and faculty
- Delivered **5+ technical presentations** at college events and competitions
- Led and coordinated **3+ technical projects** from requirement analysis to deployment
